Missionary Focus

The Hudaks – Praise God for how He has blessed their work in Spain the first half of 2011 and for providing a home for them which “miraculously” provided a storage place for them while on furlough. Praise for God’s protection and strength as they will be traveling some 15,000 miles while on furlough as they visit churches. Candace, Cal & Cody seem to have handled schooling changes very well. Praise for God’s provision of money to purchase a new vehicle when they return to Spain. Pray their goal of full support is met so they can return in June to continue the work there that God has called them to. Pray with them that we will see God working great miracles in the lives of people all over the world.
